

UNIVERSITY OF NAPOLI "FEDERICO II"
POLYTECHNIC AND SCIENCE SCHOOL
Department of Chemical Sciences
Ph.D. School in Chemical Sciences (XXXVI Cycle)

Second year activity

3D structural elucidation of several complexes by combining NMR experimental studies and computational approaches.

Ph.D. Student

Maria Concetta Forgiione

**Binding studies between ligands
and their receptors:
Neisseria gonorrhoeae LOS &
mAb
Cytoadhesins & Sialoglycans**
