

UNIVERSITY OF NAPOLI "FEDERICO II"
POLYTECHNIC AND SCIENCE SCHOOL
Department of Chemical Sciences
Ph.D. School in Chemical Sciences (39° Cycle)

First year activity

Project dedicated to
the memory of Giulio
Regeni

Design, synthesis, characterization,
and biological evaluation of new
promising nature-inspired anticancer
and neuroprotective agents.

Ph.D. Student
Maria Petrone

Title
Design and synthesis of new natural
product-based drugs for the
treatment of Protein Conformational
Diseases (PCDs)
